In this workshop, your child will be taught the basics of hand embroidery including the tools used (and how to safely use them), how to start a project, and the basic stitches used to create their own embroidery hoop art. The children will leave the class with the knowledge to complete an embroidery hoop from start to finish. Participants should not expect to complete his/her project during class time but will leave with their tools and supplies so they may finish their projects outside of class. \*\*No prior sewing or needlework skills are required, just the willingness to try something new and the ability to be safe with sharp objects.

## **The Symbol of the Creative Arts Guild**

The CAG logo was first used as a symbol for the Buonarrotti in Florence, Italy around 1150 A.D. The symbol became an integral part of the Buonarrotti family crest and became synonymous with their honor, wealth and prominence.

During his childhood, Michelangelo saw this symbol everywhere from archways above the front door to letters written by his family. He started to use the symbol as a motif in many of his architectural designs to represent family, home, security and wealth.

The founders of the Guild in 1963 chose this symbol as it embodied many of the values they wanted to convey through the Creative Arts Guild – security, family, home, honor, and a prominent spot in the hearts of the community as well as honoring the tradition of guilds where artisans learned their trades. Today we at the Guild also equate it with the Renaissance, much like Michelangelo experienced and was a part of in the 15<sup>th</sup> century so are we in Dalton, Georgia in the 21<sup>st</sup> century.

## **The Creative Arts Guild's Story**

The Creative Arts Guild is the oldest multi-disciplinary community arts center in the state of Georgia. Founded in 1963 by a group of civic leaders, the Creative Arts Guild began as a community grass-roots movement originally housed in the Old Firehouse on Pentz Street. The Guild began offering art, music, dance and theatre classes as well as gallery shows and exhibitions. As programming and class attendance grew, plans for a larger facility were developed. In 1981, the Guild moved to its permanent home at 520 West Waugh Street. The vision of that small group of patrons has grown into an organization that now houses four educational departments as well as our Arts in Education outreach programs, events, gallery exhibits, music and dance concerts and recitals and acts as a hub of culture for North West Georgia and South East Tennessee.

As growth continues, various Creative Arts Guild programs have been offered from alternative locations. Currently the Guild's Visual Arts, Dance and Music Departments as well as the Guild's administrative offices are housed at the 520 West Waugh Street location. The Guild's Waugh Street location houses all private music lessons, group dance, music classes and visual art classes. Waugh Street is also the home of the Guild's Main Gallery, Gallery 111 and the Jonas Performance Hall that hosts regular gallery exhibits and opening receptions as well as music concerts and performances.

The Creative Arts Guild is a non-profit organization as defined under section 510(c)3 of the Internal Revenue Service Code that is supported by instructional fees; commission sales; rental fees; donations from individuals, corporations and foundations; and funds from the Georgia General Assembly and the National Endowment for the Arts. The Guild Also provides services to the City of Dalton to support the City's vision of progress and growth.
